

GENERAL INFORMATION

The Wiper Seal is designed to prevent product loss and atmospheric contamination from Internal Floating Roof Tanks (IFRT) and to ensure effective operation in specific tank conditions.

It can be used for aluminum and carbon internal floating Roofs.

MATERIALS

1. PVC / Nitrile

- Material seal: Nitrile / PVC
- Exceptional chemical resistance to alcohol, ethanol and other special applications.
- Excellent flexibility and abrasion resistance.
- Temperature range: -10 to 105 ° C
- Dimensions: 12 inches W x 20ft L x 3.2lb / ft.

2. XLPE

- Material seal: Crosslinked polyethylene XPE
- Exceptional chemical resistance for alcohol, ethanol and other special applications.
- Excellent flexibility and resistance to abrasion.
- Temperature range: -60 to 80 °C
- Standard dimensions: 310mm (L) x 20mm (thk)

3. URETHANE

- Material seal: Urethane
- Exceptional chemical resistance for MTBE and 100% aromatics.
- Excellent flexibility and resistance to abrasion.
- Standard dimensions: 300mm
- Temperature range: -30 to 60 °C
